Dear Mr Woodward,

Provision of Free to Use ATM in Rainhill Village

I am writing following your letter regarding the recent removal of the only cash machine situated within the village.

I can understand the detrimental effect this must be having on the shop keepers and residents of the village. As you rightly mention Bank Machine had a very successful meeting with local Councillors and shop keepers recently and I am delighted to say we will shortly be installing a free-to-use machine in the village.

We now have over 600 free-to-use ATMs in the UK and we are happy that the residents of Rainhill Village are joining the growing number of people around the country who can confidently depend on Bank Machine to provide a local solution to their need for cash, the most vital of commodities.

I very much appreciate your endorsement and hope the villagers and businesses of Rainhill Village will see the benefits shortly.

We will contact the local media you mentioned and we hope that we can count on your continued support during the approval process should it be required.

Best regards,

Ron Delnevo
Managing Director UK and Europe
